

The Surfrider Foundation's Ocean Friendly Restaurants Program recognizes restaurants that are committed to cutting out single-use plastic and offers a simple, straightforward framework to help them make sustainable choices for the ocean.

## What does it take to be an Ocean Friendly Restaurant?

1. Only reusable foodware is used for onsite dining.
2. Paper straws or naturally occurring straws are provided only upon request.
3. No expanded polystyrene (aka Styrofoam).
4. No plastic bags are used for takeout or to-go orders.
5. Single-use utensils, straws, condiments, and other accessory items are provided only upon request.
6. Beverages are not sold in plastic bottles.
7. Proper recycling practices are followed.
